

# Unlock the Power of Analytics

I.Q. is a web portal that allows you to interact with Scholar's behavioral data at various levels and time spans to show how your entire organization, specific groups, or even individual learners performed. Where are your employees excelling? Where are their blind spots, and what's driving their decisions? This is more than LMS data... it's I.Q.

## UNCOVER BEHAVIOR TRENDS

Get a bird's eye view of overall performance: time spent, strengths and weaknesses, and potential risks.

## PROVE EFFECTIVENESS

Measure learner performance on any exercise and warm-up question from every one of your Scholar courses.

## BENCHMARK PERFORMANCE

Quickly uncover the top five most challenging topics for your team, and which areas are well understood.

## Interactive Dashboard Features

### Segmentation and Filters

Easily slice and dice your company's analytics in real time by any criteria.

### Compare Mode

Quickly compare learner performance of your filtered data set against all users.

### Internal Benchmarking

Compare performance trends for various segments of your organization against each other.

### Custom Reports

Pull I.Q. reports at various data levels and time spans to provide insight and prove training ROI.
